BLUE SWIMMER CRAB  
*Shark Bay ~ Australia*

CRAB MORNAY  

---

CATERING PACK

# ABACUS FISHERIES BLUE SWIMMER CRABS, CAUGHT IN THE PRISTINE WATERS OF THE WORLD HERITAGE LISTED SHARK BAY.

The Abacus Blue Swimmer Crab is the quality benchmark in Australian crab.

Caught by day boats working to the most sustainable practices, the Abacus Crab Fishery is a species specific, targeted blue swimmer crab fishery.

The crabs are caught in the pristine World Heritage Listed waters of Shark Bay in the North West of Western Australia.

Landed "live" at the Abacus wharf in Carnarvon, the crabs are cooked and chilled immediately to ensure the finest quality meat is produced. The difference in the Abacus Crab Meat is that only "A" grade crabs are used in the production of the premium meat.

The meat is picked by hand, ensuring firm, even flesh, Abacus use only the jumbo lump meat from the body and claw meat to produce the Premium Crab Meat.

The "Mornay" mix is cooked to a traditional French recipe, incorporating natural crab stock, produced daily from fresh cooked crabs, on premise at the Abacus kitchen.

Neither the Premium Crab Meat or the Mornay mix are pasteurized – ensuring maximum, natural crab flavour.

The Abacus Fisheries Crab Mornay mix offers premium quality and value across a range of uses.
